

Exotic Wood Restoration Specialists

Over time teak can be dulled by age, sunlight, extreme temperatures and standard usage. We restore your teak to it's former glory and help protect your investment.

"Protecting your Teak investment starts with proper maintenance!"

The Exotic Wood Specialists

We are exotic wood specialists focused on restoring and maintaining a variety of hard and soft woods. Our expertise is in the art of wood working, wood care and custom projects.

Our artisans have a passion for what they do and enjoy the transformation of the many wood items entrusted to our care. We aim to help you protect your investment and make it last a lifetime.

Teak is a prime example of one of the beautiful hard woods that we maintain. The amber colors of teak do require proper, regular maintenance to protect its beauty. Fortunately, our restorative 12-step process can be tailored to a plan specifically for your needs. We provide a deep, long lasting clean for your wood.

Restoration & Maintenance

- Interior/Exterior Patio Furniture
- Gazebos
- Ipe Decks
- Pergolas
- Daybeds
- Interior Furniture & Custom Repairs
- Veneers
- Laminates
- Antiques
- High Gloss Yacht Finishes
- High End Furniture Repairs

Custom Wood Work

"We began using the services provided by Touch Up Teak about a year ago. The work quality and attention to detail they provide is exactly what is needed to maintain the best care for the Diplomat teak furniture.

Before Touch Up Teak, we did not feel like we received value in terms of a lasting finish on the exterior-purposed teak with the processes and vendors we had been using. Touch Up Teak meets the high standard requirements the Diplomat must maintain and their staff is courteous and diligent.

We have now reached out to them for other wood products and furniture care besides teak to meet our varying needs."

- David Twitchell, Director of Engineering, FMA
Diplomat Resort and Spa, Hollywood FL
